Tata Power signs PDA with Mukand for 43.75 MW Group Captive solar plant

Tata Power Renewable Energy (TPREL) has signed a power delivery agreement (PDA) with Mukand, a Bajaj Group company, for a 43.75 MW AC group captive solar project. Strategically Located at Jamkhed in Maharashtra, the installation will generate 99.82 MUs annually and is likely to offset approx. 54687 CO2 emissions annually. The project has been scheduled for commissioning by March 2024. With this, the aim of the installation is to meet the growing energy demands of Mukand as well as contribute to making their steel manufacturing processes and production greener.
