Mukand Limited Signs PDA with Tata Power Renewable Energy Limited for 43.75 MW AC Group Captive Solar Plant

SHARE

The PDA between Mukand Limited and TPREL scheduled for commissioning by March 2024, is projected to generate 99.82 MUs of power and is expected to offset approximately 54687 CO2 emissions annually.

Mukand Limited, the pioneering force in the realm of specialty steel long products and heavy machinery in India, proudly announces a groundbreaking partnership with Tata Power Renewable Energy Limited (TPREL), a prestigious subsidiary of Tata Power and a key player in the renewable energy sector. This momentous collaboration marks the signing of a Power Delivery Agreement (PDA) for a cutting-edge 43.75 MW AC Group Captive Solar project located at Jamkhed in Maharashtra. The installation is poised to generate an impressive 99.82 MUs annually, thereby contributing significantly to India's renewable energy goals.
