## Mukand Limited Successfully Manufactures Its First Coke Bucket and Carriage for the CDQ Process

business Apr 10, 2025

The Coke Dry Quenching (CDQ) process is an advanced and environmentally friendly alternative to traditional wet quenching. By utilizing dry cooling through nitrogen gas circulation, CDQ significantly reduces CO<sub>2</sub> emissions, conserves water, and enhances coke quality. This technology plays a pivotal role in mitigating environmental impact while ensuring greater energy efficiency in steel manufacturing.
